Concrete oranges will be approximately 1000 lbs and 30 inches in diameter. They are \$250.00 each for current Chamber members and \$500 for non-Chamber members (includes a 1 year promotional membership) Price includes delivery fee. We recommend 4 concrete pads for the oranges if placed on grass. The pads cost an additional \$30 per orange. You can pick up pads at Child's Building Supply, and we ask that you have them in place before we deliver the orange.
